New Varieties, Originated by Dr. J. H. Neeley

The following varieties have been grown on trial by a few of the foremost amateurs and growers in this country. Their reports have been unanimous on the high merits of these varieties and their introduction to the market has been eagerly awaited by many.

**BEAUTY'S QUEEN** (Neeley) Extra fine geranium pink, similar in color to Richard Diener, much taller and earlier, large blooms, without markings on lower petals which have a clear amber yellow base, six or more wide open blooms open at a time, of extra substance. The center of each petal is attractively crimped. Very strong grower. Large, each $5.00.

**BRIGHT WINGS** (Neeley) A magnificent new introduction and a variety of outstanding merit. The massive blooms, spreading five to six inches have a most original orchid form. The color is a soft lavender rose deepening at the edges, lighter center to white on lower petals. Six blooms open of wonderful substance. Very strong grower, producing a tall spike of arresting beauty. Large, each $25.00.

**FAIRY LANTERN** (Neeley) A most attractive novelty, unusually odd coloring; deep lavender rose, finely veined cream yellow, lower petals yellow marked rose. The peculiar shaped blooms hang on the spike like Chinese lanterns. Very early. A cross of Dracocephalus and Golden Measure. Large, each $2.50.

**ROSE TINT** (Neeley) Fine and original old rose coloring with bronzy overlay, lower petals marked deeper. Strong plant, tall spike, five or more large blooms open. A valuable addition to the popular dusky shades. Large, each $3.00.

**SUNSHINE GLOW** (Neeley) Early, beautiful pure scarlet with glistening sheen, clear yellow throat. A grandiflora Prim. with exceptionally large and wide open blooms, many open, strong grower. The brightest spot in the garden. Large, each $2.50.

The above varieties are all good reproducers.
